

Example solution ReadME:

img3903_playground / Lab2 /

Exercise 1

Test Case	Expected Results	Actual Results	Verdict(Pass,Fail,Inconclusive)
1	accepted	accepted  	Pass
2	accepted	accepted  	Pass
3	accepted	accepted  	Pass
4	Err1	Err1 and Err3 	Fail
5	Err2	Err1 and Err3 	Fail

JUnit Parameterized Runner

Output from Running the test

Exercise 2

Test Run using bin/test:

Typical explicit test case that doesn't use exceptions:

Explicit test cases that have exceptions:

Parameterized test values for test cases that run OK and return a Date

Parameterized test values for tests cases that DO result in an exception
